# **SITUATION SUMMARY**

## **Cal OES Activation Status**

- The State Operations Center (SOC) is activated at Level 2.
- The Coastal REOC is activated at Level 1.
- The Inland REOC is activated at Level 2.
- The Southern REOC is activated at Level 1.

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

## **Weather of Concern**

Daytime highs will begin a slow decline statewide this weekend. Temperatures will drop both Saturday and Sunday but still remain a few to several degrees above normal for mid-September. Most of the week next week, however, will see near or BELOW normal temperatures. A plume of moisture will continue to stream in from the south-southeast from remnants of Hurricane LINDA off the BAJA California coast. This will lead to widely scattered thunderstorms across much of Southern California mountains, valleys, off shore waters and deserts. The main threats from these storms will be brief heavy rain, gusty downdrafts, and deadly cloud to ground lightning.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

A pattern change will develop this weekend as an approaching upper trough breaks down the ridge. This will bring seasonal temperatures back to northern California through early next week. There will be a slight chance for thunderstorms Saturday and Sunday afternoons with a slight chance for rain on Monday.

#### **Medford Weather:**

The end to the unseasonable hot stretch continues to approach as the upper level ridge over northern California weakens. A showery pattern remains ahead of the next, much wetter system on Wednesday.

#### **Reno Weather:**

Very warm temperatures will continue today with smoke and haze from large fires west of the Sierra crest. Isolated to scattered thunderstorms are possible Sunday and Monday, with gusty winds and cooler temperatures for Monday as low pressure develops near the Pacific Northwest coast. Breezy and much cooler conditions with a slight chance of showers are expected through Wednesday.

#### **San Francisco Weather:**

A gradual cooling trend will continue during the weekend as an upper ridge over the west weakens and moisture from the south continues to increase. In addition, there is a slight chance of thunderstorms over portions of the district today. Much cooler weather will develop next week, especially inland, as an upper trough forms near the west coast.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Cooling is predicted this weekend with a slight chance of afternoon showers and thunderstorms over the higher terrain. Additional cooling is expected next week, with a threat of precipitation at times, mainly over the mountains.

#### **Hanford Weather:**

Strong high pressure will remain over Central California today with well above normal temperatures continuing. Temperatures will trend cooler this weekend and into early next week. Sub-tropical moisture will provide a chance of afternoon showers and thunderstorms over the mountains and desert through Sunday.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

A humid air mass will remain in place over Southern California through the weekend, however, a cooling trend will establish through Tuesday. A moist air mass from former Tropical Storm Linda will interact with a trough of low pressure off the north coast of California to bring a wet weather pattern to most of southern California early next week. A warming and drying trend is expected for the latter half of next week.

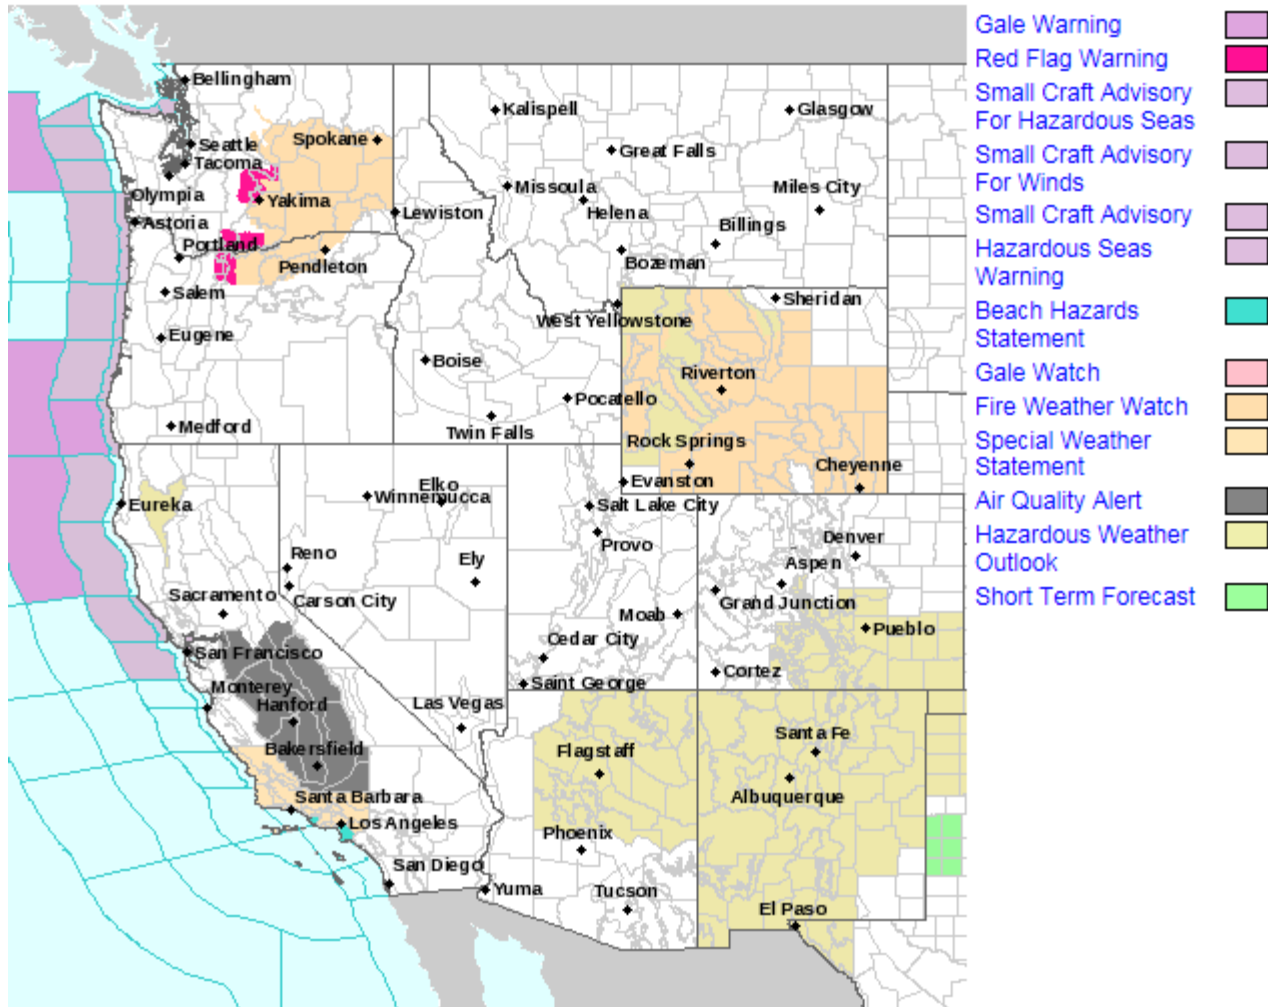

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Monsoonal moisture will bring a slight chance of showers and thunderstorms to the mountains and deserts during the afternoons and early evenings. Onshore flow will gradually increase this weekend, resulting in a slow cooling trend. There will be another chance of rain late Monday night through Tuesday as a low pressure trough over the west coast pushes remnant moisture from the former Hurricane Linda into Southern California. Cooler next week as a low pressure trough redevelops over the west.

#### **Southeast California Weather:**

A somewhat drier and stable air mass will continue to cover Southeast California today. However, several pacific disturbances are forecast to shift Sunday through Tuesday, with an increase in monsoon moisture, and a chance of showers or thunderstorms. A drier and more stable air mass will return the latter half of next week.

**Butte, Vegetation Fire, Amador and Calaveras County**

**Major impacts:**

Shelters / Evacuation Centers

Calaveras County:

CDSS is working closely with the American Red Cross to monitor for increased sheltering demands. Red Cross fully anticipates being able to meet any spikes that might occur the evening of 9-11-15. CDSS will continue to stay in close communications with the Red Cross throughout the weekend to ensure that all mass care needs and concerns are identified and met.

Shelters:

- CDSS has advised and Cal OES LEB has confirmed that the Red Cross has relocated the shelter located at the Calaveras County Fairgrounds due fire activity in the area of the Fairgrounds. CDSS along with Cal OES Inland Region reports that new shelters have been established at the following locations:
- Burson Fire Department, 3255 Helisma Rd, Burson CA 95225
- Good Samaritan Church, 4684 Baldwin St Valley Springs, CA 95252. Current population: 15
- Jenny Lyn Veterans Hall, 189 Pine St Valley Springs CA. Current population: 40
- Animal shelter: Calaveras Fairgrounds for large animals, 2465 Gun Club Road, Angels Camp, CA 95222.

Amador County:

- Shelters: Jackson Rancheria Casino and Resort, 12222 New York Ranch Road, Jackson, CA. This is a Red Cross Shelter. Current population: 195
- Animal shelter: Amador Fairgrounds for small and large animals, 18621 Sherwood St. Plymouth, CA, 95669.

Healthcare Facilities

- CDPH advised: Sutter Amador Hospital (SAH) is under normal operations. There is concern with air quality within the facility due to heavy smoke from the fire. SAH administration is keeping in contact with the EMSA and the Amador Health Officer with both air quality and census updates.
- EMSA advised: There is a low probability for evacuation of medical facilities. The main concern is poor air quality.
- American Legion Ambulance staffing 9 units (both Amador and Calaveras Counties). They have implemented emergency staffing through the incident. They will staff (9) 24 hour units through 09/11/15 and will staff 8 units 09/12 – 09/13/15.
- The CEO for Sonora Regional Medical Center has been in contact with Mark Twain St. Joseph's in San Andreas with an offer for assistance.
- Avalon Care San Andreas (SNF) in San Andreas was preparing to voluntarily evacuate its residents on 09/11/15, however, the Sacramento Licensing & Care District Office was advised that the Calaveras County Sheriff Department instructed the facility to retain their residents and "shelter in place." After transferring a small number of residents, the SNF facility adjusted their plans and modified their ventilation system so they are not circulating outside air, and will retain the residents until instructed otherwise.

# SITUATION SUMMARY

##### Schools

- All Calaveras County schools are closed today.
- All Amador County schools are closed today.

# SITUATION SUMMARY

## FIRES, NORTHERN OPERATIONS AREA

### Butte, Vegetation Fire, Amador and Calaveras County

#### **Major impacts:**

##### Infrastructure

- CUEA reports that PG&E lost transmissions lines which affect power for 11,200 customers. PG&E is working on two mobile generation solutions to pick up additional customers, this ongoing.
- Cell service has 3 towers working off generators providing full service, 2 additional towers are being worked on with no ETA.
- Per the Cal OES Critical Infrastructure Protection (CIP) Division: There is no CIP-identified state critical infrastructure within ten miles of the current Butte Fire burn area. However there is a 99MW hydroelectric plant and associated PG&E substation within the fire perimeter, and two Public Safety Communications towers within 1 mile of the current perimeter.
- There is a threat to two wooden water flumes which are owned by Calaveras County Public Utilities. The flumes also provide water to East Bay Municipal Utilities District (EBMUD).
- Per Cal OES Public Safety Communications: The communications site Sierra Vista has burned over due to the Butte Fire. State agencies who are in that site are CALFIRE, Department of Transportation (DOT) and California Highway Patrol (CHP). A technician responded to the site to assess the damage.
  - Phone lines and power are down.
  - CALFIRE has a portable repeater being installed at the site. CALFIRE is operational.
  - CHP is using coverage of other sites. CHP is down because the repeater is phone line controlled.
  - DOT is operational.
- Per Cal OES Public Safety Communications: CAL-Fire TCU headquarters in San Andreas is currently being evacuated. PSC has a shop located within that facility. PSC technicians were evacuated out of the facility. A snowcat assigned to the facility was towed out and the test equipment was also removed by the technicians.
- Per the Cal OES Critical Infrastructure Protection (CIP) Division: There are seven CIP identified, state-level, critical infrastructure sites that meet the draft criteria and are within 10 miles of the fire – Amador County EOC, their Department of Public Health mail office, Calaveras County EOC, their Department of Public Health main office, the origin of the Mokelumne Aqueduct, the Pardee Dam and Reservoir, and the Jackson Creek Spillway and Dam. The buildings are vulnerable to fire but the two dams and aqueduct are generally less vulnerable to fire. Other infrastructure noted in the 10 mile radius are multiple PSC communications towers, 5 hydro power plants (99, 14, 4.5, 1.4, .23MW), multiple associated substations, multiple transmission lines (230, 115, 80, 60kV, +), and two natural gas lines (12 and 10 inch).

#### **Major impacts:**

##### Missions

- Mission # 2015-LAW-15806, 15 single person patrol cars are requested to assist with evacuations for the town of Mokelumne Hill
- Mission # 2015-IREOC-15822, Air Resources Board will provide 3 air monitors at the request of Amador County Air Pollution Control Officer to be placed in 3 locations: Sutter Creek Elementary School, 340 Spanish St., Sutter Creek, 95685; ACES Waste Services, 19801 Berry St., Pine Grove, CA 95665; and County Admin. Ctr. 810 Court St., Jackson Ca, 95642.
- Mission # 2015-IREOC-15818, 6 air monitors for the Calaveras Environmental Health who will coordinate locations with ARB. Currently, only two are available. One will be placed at Mountain Ranch Volunteer Station, 8041 Washington Street and one will be placed at Calaveras Consolidated Fire Department, 129 Hwy 12, Valley Springs.
- Mission # 2015-IREOC-15857, Portable Repeater 1 of the Calaveras Repeaters has lost power and is inaccessible due to the Fire. Calaveras County needs a repeater to bump communications up to the level prior as impacts have created spotty communications. Law enforcement and Ambulance personnel are having very difficult time speaking to each other. As of 1445 hours the repeater is enroute.
- EMMA Request Number 15830. This request is for 1 Eldorado County Emergency Manager to assist in the Calaveras County EOC.
- EMMA Request Pending for 3 Eldorado County personnel to assist at the Amador County Animal Shelter. Amador County is further coordinating 2 additional staff that is enroute from Sacramento County.
